customisation guide usa

Valid from May 2024

Let's make it unique

*We enjoy working with you.
You know what you want.
We bring our experience.
Together, we create something special.*

Attention to detail. To make your product even more special, we can fully customise it for you.

Our manufacturing and warehouse team controls the entire production process, which means we can modify all the products in our collection, adapting them to your projects and needs, or (and why not?) to your whims.

We enjoy working with our customers and collaborators. Because together we can create that special concept, that bespoke item you're looking for.

A corporate colour; a longer table or one with higher legs; a springier cushion; or simply the addition of a logo. These big or little modifications are what make you feel that this product is yours and yours alone.

That it's unique. For you. For your customer.

We're designers and manufacturers

Each product is the sum of unique moments.

Like the magical encounter between craftsmanship and industrial manufacturing.

The spark of inspiration. The fledgling idea. The first rough sketches. The countless test designs on paper. The fine details of craftsmanship, the precision of industrial manufacturing and cutting-edge technology all come together.

We design in partnership with internationally renowned designers and emerging young talents. A superb blend of experienced knowhow and fresh impetus.

Years and years of metalwork experience, working hand in hand with local suppliers to come up with the best materials and the smartest solutions to manufacture our products.

Products we make ourselves. With our own hands. At our own production facilities. Products made in Barcelona.

What do you need?

We design and manufacture hardwearing products that can handle the demands of any project, while giving it a playful and friendly attitude.

We know that every project is unique, requiring specific and dedicated solutions. Contract settings demand hardwearing products that can handle sustained use and plenty of intense living. That's why we manufacture products to be used and enjoyed with no expiry date.

And if you don't find the products that fulfil your project needs, we do it for you. We can also start from scratch. All we need is a briefing session or an idea. We love challenges. So, take the plunge.

Let's work together. Make the most of the experience and knowhow of our team. We'll try to guide you and give shape to your ideas and design. If you can imagine it, we can make it for you.
